KoMSO CHALLENGE WORKSHOP

Mathematical Modeling, Simulation and Optimization in the Pharmaceutical Industry

June 14 & 15, 2018

As part of the BMBF's "Mathematics for Innovations" programme the KoMSO Challenge Workshop aims at bringing together experts from pharmaceutical industry and academic research in order to determine which demand can be met by already existent mathematical methods, and to identify new challenges that require the development of new techniques for a sustainable progress in the pharmaceutical industry over the next ten to twenty years.

As in previous KoMSO Challenge Workshops, the results of this discussion will be documented in a position paper in order to promote the use of MSO in industrial practice also at the political level.

Confirmed speakers from industry and academia including

- ◆ AbbVie Deutschland GmbH & Co. KG
- ◆ Bayer AG
- ◆ galor GmbH
- ◆ GoSilico GmbH
- ◆ Heidelberg University
- ◆ Merck KGaA
- ◆ Roche Diagnostics GmbH
- ◆ RWTH Aachen
- ◆ TU Berlin, Bioprocess Engineering
- ◆ TU München

We kindly invite your contribution in oral presentations and in plenary discussions on this two-day workshop.
